

# **My Dream About Esoteric**

**By Matthias Lampe from  
Luneburg/Kaltenmoor**

## **Foreword**

**This book is the record of the events about esoteric that Jesus Christ revealed and he said me the sub-ideas of esoteric which is dangerous for humen and is not for health in this dream. I am a witness for that Jesus Christ has passed on the angel he has met me in that dream about these events. The angel revealed me this events.**

**Happy is the one who reads this book and happy are those who listen to the words of this book of esoteric because these events are very dangerous for men and women. The man who reads the book sees the danger of events of esoteric and he shall avoid these one. He will come not in danger of supernatural, which the devil will make the humen believe that one.**

# **The Angel Appears Matthias In The Dream To Sabbath, the 01. 24. 2004**

**As front-emphasis I had found out about in several short dreams the cassette "Heil oder Verführung" from Dr. Manfred Heide says the truth about esoteric. I heard the sentence: "You can believe the statements of the cassette by Manfred Heide from Stimme der Hoffnung."**

**In the maindream I saw an angel standing by me with flaming sword. This angel was the angel cases Adam and Eve away from paradise. He has dark hair, a light shining face, the sword and snow-white clothes. He said unto me: "The revelation about events of esoteric will come. Write down this events in a book and send this book to Adventists in the whole world." The underterms of esoteric comes now.**

## **The Acupuncture**

**The acupuncture comes from the Far East to us in Germany and other nations and is a fashion medicine and not natural medicine. I saw in my dream a human is lengthwise striped. This stripes are the meridians effect Yin and Yang. In the meridians there are points, the acupuncturepoints, medical stimuluses come about there. These medical stimuluses shall heal the human completely. Certain tracks causes medical stimuluses at certain organs. The acupuncture is a cure-method comes from taoism and from chinese. It's a paramedical treatment. Physicians and nonmedical practitioners feel not always well with esoteric ballast. 90% of acupuncteurs works with esoteric. These cure-method is a very successful cure-method because acupuncture were extinct. The wrong redeemers, miracle healers and "medicine-men" have success too. There is a danger of treatment of acupuncture in medical views that first many men and women get wrong hopes from acupuncture and second organic diseases, for example cancer or psychological**

diseases can be overlooked. The acupuncture is a cure-method with philosophical and astrological character. I saw an acupuncture-needle will be pricked in this human. The human gets a rash. A rash can causes extra if you can't bear the needles. It must pointed at that psychological diseases can cause complementary. The acupuncture is a dangerous medical treatment because it is of esoteric nature.

## The Spiritualism

In Deuteronomy 18, 9 - 13 is written: "When you come into the land that Jahwe your God is giving you, don't follow the disgusting practises of the nations that are there. Don't sacrifice your children in the fires on your altars; and don't let your people practise divination or look for omens or use spells or charms, and don't let them consult the spirits of the dead. Jahwe your God hates people who do these disgusting things, and that is why he is driving those nations out of the land as you advance. Be completely faithful to Jahwe."

In spiritualism demons places with God on the same position occur the people. I saw in the dream a cemetery where people go and consult the dead. At now there were demons on the spot immediatly and give answer the people. When you hear exactly they give answer that the deceased are living in God's new world now and they live very good there though they have sinned. In the bible is written: "But the dead know nothing." (Ecclesiastes 9, 5 b) How can dead answer if they know nothing. Living demons answer. Who runs spiritualism will get in the long run delutions and psychosis at consequence. How can God approve of sin? How can a sinner live for ever if is written in the Scriptures: "For sin pays its wage - death;..." Demons live not for ever themselves, no angel live for ever. The angels are dependent on the grace of God, they must do something, namely keep the commandments of God. Only God is immortal else nobody. The spiritualism is a substitute religion because there are spiritualistic churches they recruit superficial religious Christians with advertisements and invitations. It is written in

a textbook: "Every serious religious Christians are appealed to take part for our cosmic prayer chain, because Christ calls you straight. Change your convictions because the connection with the spiritworld of God is in near future." Many people keep in touch with their dead friends and relatives. They want to find out about how're them down in the hades but dead can't no connections with live people according to the bible, because they know nothing. The spiritualism is a spirit-doctrine which king Saul become fate and the religion of many far-east people who are believe in reincarnation, soul-migration and the cycle of rebirthings. Even then in paradise said the devil to Eve: "That's not true; you will not die. God said that, because he knows that when you eat it you will be like God and know what is good and what is bad or know everything." (Genesis 3, 5)

The spiritualism refuses the deity of Christ and renounce his reconciled death. Who comes in connection with spiritualism must get in touch with the greatest physician as religious Christian. He must ask Jesus Christ for forgiveness of sins, because Jesus Christ is died on the cross for our sins. He shall watch on the cross too.

The spiritualism occurs in parapsychology, apparition of dead, shifting of table and glasses, writing- and spellingmediums. This happens in charm and in trance or sleep.

In spiritualism looks on Christ as medium who practise and allow spiritualism. Christ forbid spiritualism at real and the contact with devilish demons obey Satan.

## **Yoga, a religion from Far East**

I saw in this dream a human sitting in a certain posture which look like a tailor-seat is an asana. An asana is an exercise in yoga. I saw an opened ladder with the other end is the throne of God. Now the human tries go up the ladder with his loaded sins and he want to sit down on the throne of God. Who runs yoga commits a sin, run our God down, because this one places with God on the same position. In Matthew 15, 19 - 20 is

written: "For from his heart come the evil ideas which lead him to kill, commit adultery, and do other immoral things; to rob, lie and blasphemy. These are the things that make a person unclean..." Blasphemy is an uncleaned thing and a sin, because to kill is a sin too. In the Old Testament blasphemy will sentence you to death. People must not place with God on the same position or on a higher position in some way, because God is the absolute and the creator of the universe. Everything is relative, but God is absolute, that is the difference.

Many people runs yoga from non-religious reasons. Many people think that yoga is a contribution of health and arranges rest. Yoga is a far-east religion which comes from Hinduism. There are two kinds of yoga: The hatha-yoga and the mantra-yoga which is the transcendental meditation. At the mantra-yoga there is held repeats of mantras are the elements of meditation. The meditation, which Christians should run is a contemplation. The contemplation is different from far-east meditation. The contemplation is an obversation in prayer which is a conversation with God. At the contemplation the returned words of God will be looked in prayer. The Holy Spirit is present in contemplation. The far-east meditation is an identification with a heathen diety suspected with God himself. This kind of meditation is a kind of absorbation. The yogi-tea is a sedative tea which can prepare for yoga. The hatha-yoga is the preparation for the classic yoga and the mantra-yoga.

Yoga is a trial of self-salvation but with sins it is going downhill in the second death which is written in Revelation chapter 20 lines 14 and 15 steeply. There is no combination with yoga and Christianity. A Christian puts his thoughts on Christ and not on unknown forces of yoga too and believes in a living God and obey the Lord Jesus Christ and don't place with God on the same position. With yoga you can get delutions they causes a shicophrene psychosis.

For Christian is valid Acts 4, 12: "Salvation is to be found through Jesus Christ alone; in all the world there is no one else whom God has given who can save us."

# **Hypnosis, a way in Hell**

I saw in this dream a man who has a weak will. This one laid down on the examination-table and a magic man tries putting the man into sleep. The magic man begins to slacken the muscles of the eyes and tries to force his ideas on the man with a demon. In the second case I saw a strong-willed Christian kneel near the same examination-table. He prayed continually. The magic man has no chance to hypnotize this Christian, because two angels of God protect against demonic influences. Hypnosis has no real healing-effect in case of disease and is subordinated to spiritualism. Hypnosis is Greek and its meaning is sleep. An important element of hypnosis is the black skill. Indian fakirs have hypnotic abilities. The hypnotized is subordinated to the orders of the hypnotizer. The hypnotized follows every order of the hypnotizer without thinking. He is dependent on the will of the hypnotizer. Incredible stories come to light from hypnosis. The hypnotized explains he was a monster or a dinosaur but there wasn't one. With hypnosis you can get psychiatric diseases and in hypnosis the hypnotized can get hallucinations from the hypnotizer. The old heathen, oriental and demonic skill effects esoterically, spiritualistically and demonically. Hypnosis is the most effective way that opens the door from all demons to the subconscious with total eliminating of the will and the conscious activity of sense. Hypnosis is black magic and will be refused determined from every man's friend. It stands in stark contrast to every world view. Here is valid: "Believe in the Lord Jesus Christ, and you will be saved - you and your family." (Acts 16, 31) In hypnosis the subconscious will be controlled from the hypnotizer. Hypnosis holds many serious dangers. The freedom of humankind will be taken. The relaxing-practice is not of use to religion but is of use to prepare for sporting contests or races.

## **Relaxation-Exercise a Self-Hypnosis**

The relaxation-exercise is originated from psychoanalysis and

represents an out of self originated exercise. This exercise is a self-hypnosis. In the center of relaxation-exercise is the EGO. The human transfers himself in a strange condition and deepens himself in a harmonic inside-show, the absorption. Relaxation-exercise is not stress-reducing but it is in his quality a measure which leadn't to God, the greatest physician. Relaxation-exercise wakes seeming hopes, seeming life-helps and concentration and improves the performance. This exercise leads to an increased self-value-feeling. Through this exercise rheumatism, asthma, interruptions of sleep, migraine and heart-neuroses will be healed seemingly. With relaxation-exercise will not be healed any diseases, because this is a kind of hypnosis. This exercise isn't reducing addictions too. The man who runs with relaxation-exercise is deepend whole in himself with this meditation and concentrated whole in his EGO. God will be pushed aside. The human will be very egotistical and will be driven into selfish addiction. Who relies on relaxation-exercise leave that to himself and will be alienated to God. In relaxation-exercise is the greatest danger of distance to God. The effects are remarkable and can make depressions, psychoses and borderlein-syndromes. self-hypnosis is dangerous for people, because the human is absorbed in the dreamworld of phantasy. When we bring our problems to God the problems will be cleared out of way and we find our inner peace, rest and sleep. Relaxation-exercise is a snare from Satan.

## **What is the Behind of Waldorf-schools, Demeter and Anthroposophists?**

I saw in the dream a Demeter-farm which is portrayed something like a school. The farmer watches on the so-called earth-radiations and on the moon-cycle. This farmer makes astrology, fortune-telling and similar practices and changes in this way his harvest. The girl-teacher teaches her students the evolution-theory, the laying of cards, the clairvoyance, the white and black magic and that you can consult the spirit of

the dead. Each a demon is at the farmer and the girl-teacher disposal.

The anthroposophism has christian, buddhistic, neoplatonic, indian and spiritualismal goods of thoughts. The Waldorf-schools, the instruction of cure and the alternative diet with organic-dynamic land-cultivation is come a slave to the occult. The biowave is originated from demonic power. In Rudolf Steiner the founder of anthroposophism developed clairvoyant abilities from earliest childhood which him had never let in doubt the existence of a spiritual world behind and over the senseworld. From his childhood Steiner was busied with the question: "How sticks physical world by each other spiritual one." Steiner was one of the first advocates and systematizes of the occult in the West. Steiner thought occultyly. He made a complicated system of world views which he has scooped from most different sources. Every spiritual, metaphysical and scientific concepts find place in it as long as they suited in his total pattern. Steiner denied the teaching of Creation and stick to the evolution-theory. Demons watch over the doctrine of Rudolf Steiner is an extension of consciousness. Steiner believed in reincarnation. Steiner posted occulty theories, the spiritual science. The antroposophism is a religion and no Cristianity. A genuine Christian puts on the Bible and not on the doctrines of the Waldorf-schools. According to Steiner Christ was the completed example of human development. The true unique kindness of Jesus is that he has only went through a reincarnation. He talks about from two Jesus-boys, the highdeveloped Zarathustra and the spirit Buddhas. The Christ who Steiner glorifies isn't the king of kings but the Christ is Maitreya Christ te devil and Satan. Paul says for that in Colossians 2, 8: "See to it, then, that no one enslaves you by means of the worthless deceit of human wisdom, which comes from the teachings handed down by human beings and from the ruling spirits of the universe, and not from Christ."

## **The Science of dynamic Power in the Homoeopathy**

I saw in the dream somebody who cooks tea, for example mallow-tea. The same person tips the tea so far that there is from the tea only a cup. He fill up the rest with whisky. Than he tips these accorded tincture so far that there is from the tincture only a cup. He fill up the rest with whisky again. He repeat this with the tincture at least thirty times. This so made remedy gives he a human who was fell ill in braintumour. This human has only three quarters of his brain and he must take this tincture daily seven drops. His state of health improves but for a certain time. After that time the braintumour was much worse. At the end is the death of this human because he has trusted that certain human. That one swings up this tincture and experiences from black skill how calms this remedy.

Homoeopathy is a fashion medicine like the acupuncture which is an alternative medicine. Many people turn away from the medicine of God to the fashion medicine. Chemical maded medicine-drugs have side effects, that is understandable; but therefore to alternative. I eat myself a chemical medicine-drug and I notice that this one has side effects again and again. Before a chemical medicine-drug will be put on the market it must go through many tests, for example animal experiments (not nice but important). The medicine-drug mustn't affect the quality of living by the human. You can adjust and get used to the side effects. The quality of living won't be effected because the medicine-drug is tested. Somebody has lost the trust in the bible-medicine, because these medicine seems creepy but it is good for people, because it is from the greatest physician, Jesus Christ. Certain treatments are operations or small interventions they aren't in pain. You think that acupuncture and homoeopathy are recognized cure-method of nature but they are occulty, cosmic pulsated, magic and not divine treatment-methods. You think that the vegetable stuff (now the mallow) is full effective. In real there are the dynamic dilutions or powers which unfold their forces. The establishment of the dilutions take place to the decimal system (for example D15). The starting substances are the origin tinctures and the dilutions are powers. The name power

was chosen, because it is not only the matter of a dilution but its a powering of the effects. These dilutions can't calm in the visibility of natural science, because in the D20 is diluted one litre tea to ca. 70 quintillion litres of alcohol. From the D6 you can speak about ritual spilling of alcohol already. When a client get prescribe a D6 he must take from this remedy seven drops or seven globulies in every two hours. Is it a D30 you must take the same amount every day. Is it a D200 you must take it once six weeks. When you have flu you must take the remedy A, another man or woman must take the same remedy for braintumour. That human must take the remedy B for flu etc. There are no indications on the remedy for which disease is this one or this one may be poisonous. Behind these remedies is the idea of the cosmic power, which is founded in the esoteric. These cure-method is not biblical. A biblical and a good cure-method too is the treatment with herbs. For every disease is grown a herb. Some herbs are poisonous. You come not across in the powerfield Satan's with taking of homoeopathic remedies but you trust in the treater who is occultyly burdened.

The homoeopathy was discovered from the occultist Samuel Hahnemann who claimed himself his revelations are spiritualistic nature. He call the Lord Jesus Christ an archraver. He is an enemy of Christ.

## **Sex belong to Marriage**

I saw in the dream group-sex. Men and women who are not married together carry out oral-intercourse, anal-intercourse and sexual intercourse. The men push their stiff penis between the breasts of the women. It was done without no messes. The men made partly Coitus Interuptus, the interrupted sexual intercourse. It is written in Exodus 20, 14: "Do not commit adultery." and in Leviticus 19, 29: "Do not prostitute your daughter, to cause her to be a pornaia-girl; lest the land fall to pornaia, and the land become full of wickedness." Pornaia is greek and his meaning is whoredom. Most of the porn films show these and other sex was

described on the top-text. Porn is originated from the greek word pornaia. The porn films are whoredom-films. The sex is only for reproduction. The man must love intimately the woman before they marry. At first when the marriage-certificate will be handed over the husband can have sex with his wife.

I want to return the story from the Doppelten Lottchen by Erich Kästner for this reason: In this story twin sisters act they lived apart. They get together by chance and firstly they swap their rolls. The parents are surprised. Than the twins would like to join mother and father together and they have success in part.

Following I must say that sex promotes only to reproduction. With sex children who influences our society will be originated. The chastity is one of the virtues of the Scriptures. At normal people chastity is succeeded quickly if he has no sex except with his marriage partner. The marriage partners must use sex sparingly. Oral-intercourse, anal-intercourse and Coitus Interruptus be avoided very strong, because they are messes. Onan from the bible is died of it. The penis should be stuck in the vagina by ejaculation so that children can be originated. Sex is wisd only for reason of children wish.

## **The Swinging and the Divining Rod**

I saw in the dream a human lying who was examined only with a pendulum. Demons were there and they have under control the examiner.

The radiesthese which works with divining rod and pendulum is a fashion examination like the acupuncture or the homoeopathy are fashion medicines. Many people consult nonmedical practitioners who works with radiesthese, because they think the examination from the physician are creepy. The radiesthese is a cosmic pulsated, occulty, magic and satanic examination method. You think the pendulum or the divining rod would turn down where the disease is but in real the body-magnetism is so little that the magnet don't find out the poles. The magnetism is amounted to  $1,482 * 10^{(-6)}$  mT. That is smaller than a billionth share of earth-magnetism.

A magnet turn down strongly in the countryside but not in the body. These body-magnetism is the so called aura. In the aura is the idea of the cosmic power, which is founded in the esoteric. These examination method is not biblical. A biblical and really good examination method too is the listening to the heart, the test of the reflexes, the physical feeling and the measuring of the electric activities of the brain or heart. For every cause of disease there are at least one method. You come not across in the powerfield Satan's with radiesthese but you trust in the examiner who is occultly burdened. At final you can say I know nobody who has invented the method of radiesthese but you can say that the inventor works with the powerfield Satan's.

## **Cards playing**

With cards playing you can lose house and farm, because the cards runs mostly not good. With Skat playing is it differently. With Skat playing there are elements of strategic game and often happens that you have a good game. The goal of Skat playing is it to get high positive points as soon as possible. The good luck desides at poker, black jack, mau-mau, rummy, canasta, skip bo and other card games. I saw in the dream a man who lost a million dollar at cards playing. For a million dollar you can build two houses. The cards have a certain symbolism. The beast (Ace) is the highest card, then there is the King (God), then the Queen (the Holy Spirit), then the Jack (The human) and than the algebra. You place the nature on the higher position as God. God creates the nature therefore the Ace must be under the Jack. The clubs are the Bad and spades, hearts and diamonds are the Good. An example for blasphemy too. Blasphemy is no virtue and a sin. Therefore you should avoid to play cards. I warn you not to play Skat and Chess. These games portray other world views and religions. Who plays Chess and Skat comes not across in the powerfield Satan's, but you support these powerfield with playing those games.

# Cards laying

I saw in the dream a woman goes to a fortune-teller who laid her the cards. She gets laid following cards-combination: (from left on the top to right below) Club-Jack, Diamond-10, Spade-9, Diamond-Jack, Club-Ace, Spade-7, Club-9, Heart-8 and Diamond-8 with the question: "Have I get any health yet?" These cards-constellation says that the woman has a sprain and her health insurance would pay those sprain. I don't feel well when I laid these cards-constellation although I laid this one in arbitrary way. I was obsessed from a devil spirit. These fortune-teller was it too.

Now the explanation to the cards:

**Heart Ace:**

**Spade 9:**

- 1) **Meaning:** hard loss, wrongness, dissatisfaction
- 2) **Biblical determinism:** This is the genuine deathcard. It describes namely the condition in the time between the Latter Rain and the Coming of Jesus Christ, it mustn't fall, that were blasphemy.

At final you can say you must leave the cards well alone. You come across quickly in the powerfield Satan's. Cards laying is occulty, spiritualismally and esoteric nature. The demons control a human quickly how I experienced that on a Sunday.

## **Tarot**

I saw in the dream this angel who was described in the beginning again without sword but with tarot-cards in his hand. He showed me twenty-two cards of the tarot-sheet. He said to me: "These are the great arkanas, they have following meaning and I say you what says the Word of God to these cards:

**According to Ecclesiastes 9, 5b the dead know nothing. The dead is become an object, no appliance, no machine or no computer which works with electricity. has two sides. The second side is ==> Galatians 5, 22. 23. These arkanas contradict most the word of God. In the Cards laying and the tarot satanic powers are in stake. Also leave some cards well alone. The card-game is the prayer-book of the devil."

With this I must agree with the angel. The true prayer-book are the psalms. The psalms are about in the middle of the bible. If You lay cards or tarot you come in touch with spiritualistic, buddhistic, indian, heathen, occult, magic, cosmic pulsated goods of thoughts. Here I must pronounce a clear "NO" to Cards laying and to tarot. I say in agree with the angel of God: "Leave some cards well alone."

## Summary

In the tractat by mission-work Werner Heukelbach with the title "Friday the 13th" is written in the third paragraph: "You do without the room nr. 13 in Hotels. When a black cat runs over the way or the mirror breaks you come so said in bad luck. What can you do against it? The vegetable-garden of superstition offers a wealthy selection: Every second man wears an amulet or some lucky charm. It promises money, love, success and good luck. Other try it with a magnetic bracelet or a gem, and they hope that these things "have healing positive powers". The "toi, toi, toi" and the crossed finger-keeping are more popular too. When you keep the fingers firm enough, so the success don't fail to materialize - so you say. And it will be kept and be kept but it goes wrong so much. At the large amount of horseshoes and other so-called lucky charms it mustn't to give no more problems at real. Do you realize this cheating? Why are so many people devoted to superstition? Because people have the need for believe to something. God has given to man the ability to faith. Only the question is, do we believe to what or to whom: To a dead "lucky charm"? To a horoscope in the daily press? Than we are barking up the wrong tree, and we are taken in by the supersition."

Who uses sympathy, that is who let talk over himself, others or animals with the intension to heal diseases in the name of God, he goes to the excommunication of the evil.

**Who wears amulets, horseshoes, mascots, cloverleaves, hogs, chimney sweeps and other things of this kind, he goes to the excommunication of the devil.**

**Who writes hopscotch-letters, he takes no good thoughts.**

**In the tractat "Friday, the 13th" is following written about the way you shall go as human and Christian: "I invite you to set your trust in this man he hold your future and your whole life in the hands. The man is Jesus Christ. He is the son of God. To these people, who believe in him, he say: "I have been given all authority in heaven and on earth ... And I will be with you always, to the end of the age." (Matthew 28, 18. 20) He is greater and more powerful as the destiny-shocks and circumstances of life we are often feel helpless handed over. He has even beaten the death. He gives eternal life. Who believes in him he knows: I am never alone. Whether in good times or in difficult life-periods, he is always with me and let me not down!**

**Jesus Christ waits for that we learn knowing him and we trust him. In the Bible, the Word of God, we read everything about him. He let him voluntarily beaten on the cross to pay with his**

life for our sins: For all unkindness, for envies and hatred, for our dishonestnesses and for the superstition. If we pray to him, he hear us. He forgive us, if we ask for it.

When you have chosen Jesus to the Lord of your life, You can safely throw all lucky charms and the whole dung of superstition in the garbage can. Than you can take a breather and you can trust that Jesus leads in your life and to the goal. At final I want to warn the reader of the book not to do make this things: fortune-telling, magic, handlinepointing, astrology, spiritualism, to use the pendulum and the divining rod, talking over, hypnosis, suggestion, healing-magnetism, wearing amulets, hanging horseshoes over door-frames, paying attention to crow-shooting or day-choosing, chainletters, dream books, misfortune-numbers, crossed scissors under pillows, easter eggs, the 6th, 7th or 8th book of Moses, Christian Academics, Anthroposophists, yoga, relaxation-exercise, christmas-customs, cards or tarot laying, games of cards, whoredom, wild sex and similar things.

Because of these things the angel has warned me at Sabbath, 01-24-2004 and he warn everybody, who practise these things or let practise them, because all these things are a game with fire. They lead not to the goal, the eternal life and the eternal town Jerusalem, which is described in Revelation 21. In this dream Jesus came to me too and said: "The words of the angel are true, reliable and fair. Listen! I'm coming soon to separate good and evil and to drop the evil!"

I, Matthias, have gotten everything in the dream. You shall not worship the creature but worship the creator. Jesus said to me: "Send this book to Adventists in the whole world."

I, Matthias, solemnly warn everyone who hears the words of this book. Who help oneself of the disgusting sins are described in this book or adds anything to the words or takes anything away from the words, God will take away from them their share of the fruit of the tree of life and of the Holy City and will add to his or her punishment the torments are described in the Revelation of John.

Amen, Even so, come, Lord Jesus
